

Our mission statement is powerful and inspiring.

“With God’s help, St. Anne’s Church seeks to serve all people, restoring unity with God and each other through Christ.”

I feel as a community, we exemplify this in our daily living. We ask for God’s help and guidance. We work to be at one with God and our neighbors. We strive to serve all people to the best of our ability. However, we are limited in what we can offer.

Our Director of Music must create music of praise from cramped quarters in the corner of the nave, directing the singers from 30 feet away. An individual in a wheelchair must struggle to enter our building, only to have no place for their wheelchair in the nave and not be able to use the restroom facilities. Folks who cannot traverse stairs cannot join us for coffee hour or adult education in the Great Hall. Children with physical disabilities cannot attend Sunday School classes or gain access to The Ark. Some people have to park and walk 2 blocks before they reach our front door. Our priests and church administrators must brave the elements to get from their offices to the church building.

The FACTS team is currently finding solutions to these issues and many more. When their tasks are completed, we will be able to fulfill our mission statement and our commitment to God. Please keep their work in your prayers and let your voice be heard.
